

Across

- 3 Thin wispy clouds (6)
- 5 Puffy clouds on an otherwise blue sky. (7)
- 8 Air pressure is measured by a _____. (9)
- 10 Boundaries between air masses are called _____. (6)
- 12 Most of the air that makes up the atmosphere is found in the lowest layer, called the _____.

- (11)
- 14 Above the mesosphere is the _____. (12)
- 15 In the lowest layer of the atmosphere, as altitude increases, _____ decreases. (11)

Down

- 1 Air _____ decreases as altitude increases. (8)
- 2 Moisture in the air is called _____. (8)

- 4 Above the troposphere is the _____. (12)
- 6 Humidity is measured by a _____. (10)
- 7 Rain clouds that blanket the sky. (7)
- 9 Above the stratosphere is the _____. (10)
- 11 The greatest proportion of air is the element _____. (8)
- 13 _____ found in the upper atmosphere helps shield Earth

from ultraviolet radiation. (5)
