SEGREGATION & “JIM CROW”

The freedoms and rights promised to African Americans were slowly taken away after Reconstruction, and it would take years to win them back.

“Jim Crow” laws had an effect on African Americans and American Indians.

Terms to know
- **Segregation**: The separation of people, usually based on race or religion.
- **Discrimination**: An unfair difference in the treatment of people.

During Reconstruction, African Americans began to have power in Virginia’s government, and black and white men could vote and hold office.

After Reconstruction, these gains were lost when “Jim Crow” Laws were passed by southern states.

“Jim Crow” Laws established segregation or separation of the races and reinforced prejudices held by whites.

Effect of “Jim Crow” laws on the lives of African Americans and American Indians included
- experiencing unfair poll taxes and voting tests that were established to keep them from voting;
- difficulty voting or holding public office;
- being forced to use separate, poor-quality facilities and services, such as drinking fountains, restrooms, and restaurants; and attending separate schools.

Segregation and discrimination had an impact on:
- Housing
- Employment
- Health care
- Political representation
- Education
